## Executive Update

### **Reffett Associates has been selected by Pioneer Human Service to assist them in a search for a VP, Human Resources**

Seattle, WA - Reffett Associates is pleased to announce that they have been selected to assist Pioneer Human Services in their search for a new VP, Human Resources.

Founded in 1963 by Jack Dalton, Pioneer is committed to providing a chance for change to people overcoming the challenges of substance abuse and criminal histories by offering treatment, housing and employment. They are the only organization in Washington State that offers a fully integrated array of housing, employment, training, reentry and treatment services.

Since opening as a single halfway house in November 1963, Pioneer Human Services has come a long way. They have grown and evolved to meet the ever-increasing needs of their customers and communities. Today, they offer a broad range of programs that help people who are re-entering society from prison or jail and those who are overcoming chemical addiction and mental illness.

Despite their growth and progress, their core values and purpose have not wavered. Everyone deserves an opportunity to achieve their potential. Pioneer Human Services provides people a chance for change so they can, in turn, contribute to stronger, healthier communities.
